### PROJECTS AND RESEARCH PAPER

**Generic Job Readiness System: -**

**Jan 2023- April 2023**

**Research Paper (Published in May 2023)**

Key Skills: PHP, MySQL, HTML5, CSS, Javascript.

Description: The modern education system leverages advanced technology for knowledge sharing, learning methodologies, and digital tools. Our proposed system focuses on enhancing students' knowledge and job readiness from undergraduate to graduation through aptitude, technical interview preparation, and programming skills. It also enables colleges to assess students' performance and provide industry-relevant practice questions.

**Creativity Catalyst: -**

**Jan 2024- Present**

Key Skills: PHP, MySQL, HTML5, Tailwind CSS, Javascript.

Description: The Creativity Catalyst is a web-based platform for managing student project submissions and competitions in colleges. Projects are submitted in multiple stages, reviewed, and approved before final submission. Competitions are created at the university level, and selected projects go through registration and final submissions. The system ensures structured data management, notifications, and fairness using PHP and MySQL.
